Tower Beverages Craft Soda

Prospect Hill Bottling and Soda Water Company began when Domenick and Giuseppe Cusolito, who were cousins, started the Company in Somerville, Massachusetts in 1914.

Sometime in the 1930's, near the end of prohibition, the operations moved a short distance down the street to a vacated brewery in Charlestown, MA. Operations continued at this location through the 1960's.

Of all the flavors that were produced, the most popular by far was Tower Root Beer. Locally produced and distributed, Tower Root Beer became the most popular selling Root Beer in the Boston area for over 60 years.

In 2009 Tower Root Beer returned to the market for the first time in over thirty years. In 2014 the product line was expanded to include additional old flavor recipes.

Our beverages are made using exclusive flavor concentrates based on our old recipes with pure artesian spring water, 100% cane sugar and always bottled in real glass bottles.

Our bottler is an old school hands on bottling operation that prepares specialty beverages in small batches.

Our flavor line is currently made up of the following old time flavors.

- Tower Root Beer (Original Recipe)
- Tower Diet Root Beer
- Tower Cream Soda
- Tower Golden Ginger Ale
- Tower Ginger Beer
- Tower Grape Soda
- Tower Orange Soda
- Lemonade (noncarbonated)
- Raspberry Lime Rickey

MAPLE SAP SODA

16g sugar | 90 calories | Carbonated

MAPLE SAP SELTZER

9g sugar | 50 calories | Carbonated

**These products are both made from 100% pure maple sap. The difference between the products is the concentration of the sap. We achieve our Soda by concentrating the sap further (removing more water) giving it a sweeter taste and higher level of minerals and nutrients.*
